

# STAINLESS

ULTIMATE PERFORMANCE

Apollo XHS

Ballistic XHS

Ballistic XHS 4-Blade

With sizes available for 30 HP thru V6/V8, Apollo Standard Diameter propellers can be utilized on typical Outboard & Sterndrive applications. Apollo Large Diameter propellers are great for heavier applications that require increased blade area. Apollo propellers are also available in 4-blade configurations for improved hole shot under heavier loads, and are great for pulling/towing for water sports.

Michigan Wheel's award-winning, ultimate performance propeller now utilizes the XHS® / XHS® II hub system. Ballistic® propellers feature characteristics of racing style propellers, including the proven Power Tip for peak efficiency. The Power Tip and cup combine to improve bite and reduce power loss, while highly cambered blade sections provide for higher speed and better bow lift. Available for a full range of applications (9.9 HP thru V6/V8 Outboard & Sterndrive), Ballistic propellers are the perfect choice for propeller upgrades.

Michigan Wheel's Xchangeable Hub System absorbs impact and stress caused by shifting gears and is designed to spin under significant impact to help protect your lower unit. XHS® / XHS® II is also designed to be interchangeable with Mercury's Flo-Torq II hub system, potentially saving you money when replacing or upgrading your propeller.

**STEP 1:**

Locate Horsepower/Model and Year that corresponds with the engine application.  
Read across to reference XHS® / XHS II® Hub Kit & propeller series that corresponds to engine.

**STEP 2:**

Select propeller diameter and pitch from corresponding propeller series that best meets your vessel and usage.  
Refer to MWM 2016 OBSD Catalog for specific engine years.  
**For complete installation, select a hub kit AND a propeller.**
